

DAGAM CHANDRAMOHAN

Hyderabad, Telangana, India – 501506 | 6305558499 | mohandagam04@gmail.com | GitHub: chandramohandagam

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with hands-on experience applying Data Structures & Algorithms, Database Management (DBMS), and SQL to build and lead full-stack web applications using React.js, Node.js, and MySQL. Led a cross-functional student team to deliver an AI-based healthcare platform end-to-end, coordinating milestones and presenting outcomes to faculty and stakeholders. Known for fast learning, structured problem-solving, and clear communication — seeking to bring these strengths to an entry-level Software Engineering role.

EDUCATION

B.Tech, Computer Science and Engineering — Bharat Institute of Engineering & Technology 2023 – Present

CGPA: 7.38

Intermediate (MPC) — TSWR/JS

Percentage: 93.5%

SSC — TSWRS/COE

Percentage: 100%

TECHNICAL SKILLS

Programming Languages: C, Python, OOPS

Core CS & Database Concepts: Data Structures & Algorithms (DSA), Database Management Systems (DBMS)

Web Technologies: HTML, CSS, JavaScript, React.js

Backend Development: Node.js, Express.js, Flask

Databases: SQL, MySQL, Database Management

Subjects Studied: DevOps, Natural Language Processing (NLP), Mobile Application Development, Cloud Computing, Cryptography, Agile Methodology

Tools & IDEs: Visual Studio Code, Eclipse, IntelliJ IDEA, MS Excel / Google Sheets

Version Control: Git, GitHub

CORE STRENGTHS

Analytical Thinking, Problem-Solving, Verbal & Written Communication, Team Leadership, Collaboration, Adaptability, Stakeholder Presentation, Fast Learning Ability, Professional Work Ethic, Open to Rotational Shifts.

PROJECTS

AI Smart Care Website — Front-End Developer & Team Lead 2026

- Led a team of developers through planning, milestone tracking, and delivery of a full-stack healthcare web application.
- Structured project scope and aligned the team on goals and deliverables through coordinated planning sessions.
- Presented project progress and outcomes to faculty and stakeholders, strengthening technical communication and leadership skills.
- Resolved development roadblocks collaboratively with the team to ensure on-time project completion.

Technologies Used: HTML, CSS, JavaScript, Python, Flask

Diagnosphere — Front-End Developer 2025

- Built front-end components for an AI-based healthcare platform as part of a collaborative development team.
- Contributed to requirement discussions and platform design decisions during project planning meetings.
- Diagnosed and resolved development issues jointly with teammates to maintain consistent progress.
- Supported steady project delivery through active collaboration and clear team communication.

Technologies Used: HTML, CSS, JavaScript, Python, Flask

CERTIFICATIONS

- Certificate of Participation — GUVI Webinar: Data Science and Machine Learning Fundamentals
- GUVI Data Science Masterclass
- 1M1B - AI for Sustainability

ACHIEVEMENTS

- Achieved 93.5% in Intermediate (MPC) and maintained a 7.38 CGPA in B.Tech Computer Science Engineering
- Represented at State Level as an Associate Baseball Player (2022), demonstrating discipline and teamwork

LANGUAGES KNOWN

Telugu, English, Hindi, Marathi
